Screens Layouts (To Be)

Screen Element:	Screen
Main Screen Mockup	Visual design or wireframe representing the primary screen layout and functionality.
Detail View Mockup	Visual design showing the detailed information view of a selected record, item, or transaction.

Modal Mockup(s)	Visual representation of pop-up windows, dialogs, or modal screens used for specific user actions or notifications.
Export Mockup	Sample layout or preview of the exported output (e.g., Excel, CSV, PDF, or report).
Empty State Mockup	Visual representation of the screen when no data, records, or results are available.
Error Message Mockup	Sample design showing the error messages, validations, or system alerts displayed to users.
Design Approved By	Name and role of the stakeholder(s) who reviewed and approved the final design.
